

CGI-YES COMPETITION

IUGS-CGI Standards for Geoscience Data

The mission of the IUGS Commission for the Management and Application of Geoscience Information (CGI) is to foster the interoperability and exchange of geoscience information, by active community leadership, collaboration, education, and the development and promotion of geoscience information standards and best practice.

The Award

CGI and the Young Earth Scientists (YES) Network is offering an opportunity for a passionate geoinformatics professional to present their application of CGI standards at the 36th International Geological Congress in Delhi in March 2020.

The presentation should highlight the application of CGI standards in geoscience data delivery and/or analysis, and encourage the use of CGI standards.

CGI will pay the successful applicant up to **USD 2000** towards the cost of travel and accommodation at the IGC in Delhi. Registration cost is covered by the YES Network.

How to Enter

- Prepare a short written document (max. 1 page) and 5-6 slide Powerpoint presentation of your proposal demonstrating the use of CGI standards
- Email them to CGIsecretariat@mail.cgs.gov.cn
- Register for CGI membership, if you are not already a member

Eligibility

- Be an early career scientist, younger than 40. (ie, a student or scientist who received their highest degree (eg, BSc, MSc, PhD) within the last seven years)
- The successful applicant must submit their abstract to 36th IGC before **15 October 2019**. Abstract submission is free until 15 September 2019.

Closing Date

- **15 October 2019**. The successful applicant will be notified via email by 31 October 2019
